INFERNO OF CANNONS
AS RESULT OF WAR**

**Cherished Playgrounds Trans-
formed into Most Savage
War-Theater.**

WASHINGTON, Oct. 1.—"The
ghostly Dolomites, the wildly splendid
ruins of a once mighty Alps, where
all the forms the architect ever de-
signed, and many more, cut in chaotic
profusion into the skies, were a year

ago, a cherished playground of the
world, while today, among their
crags, peaks and rock splinters, their
weather torn crests and weather-fret-
ted precipices, an inferno of mountain
cannons, machine guns and rifles have
transformed the playground into the
most savage war theaters to be found
in all war-ridden Europe."

Thus begins the bulletin issued by
the National Geographic Society to-

**OLD AND NEW WAY
TO TREAT CATARRH**

**Breathing a Germ Killing Air En-
dorsed by Actual Results.**

The discovery of Hyomel has
wrought a wonderful change in the
treatment of catarrh.

Prior to three years ago the medi-
cine ordinarily employed in the
cure of this disease were drugs,
sprays, lotions, etc. In some in-
stances they benefited, but the im-
provement was not lasting.

With Hyomel you take into the
air passages of your throat and
head a balsamic air that goes into
the minutest cells, and should ef-
fectually kill all germs and mi-
crobes of catarrh. Its purpose is to
enter the blood with the oxygen,
killing the germs in the blood and
restore health to the whole system.
Many astonishing testimonials have
been received by Hyomel.

A complete outfit is inexpensive
and includes an inhaler, dropper and
sufficient Hyomel for several week's
treatment.

Perhaps the strongest evidence
that can be given to doubters is the
fact that Wells and Haymaker Co.
have so much faith in Hyomel that
they sell every package under a
positive guarantee to refund the
money if it does not relieve.

Now is the time to begin the use
of Hyomel and rid yourself of this
serious and oftentimes dangerous
disease. Nothing is gained by wait-
ing till the vicious microbes of ca-
tarrh have made still further in-
roads on your health.—Advertisement.

day, which deals with the terrifying
battleground where Austrians and
Italians are contesting mountain pin-
ciples, sheer walls of barren rocks,
glacier crests and narrow, twisting
valleys. The nucleus of the Dolomites
is the southeastern part of Tyrol, a
region quite as untamed now as when
Roman legionaries threatened its dan-
gerous passes with their shields in
testudo to guard against rock masses
from the heights above.

Cruel and Uncanny.
"The Dolomites are in their nature
sinister, cruel, uncanny. Their de-
solation is weird. The paths among
their crags are treacherous. Wind,
rain, and frost has scarred them with
a multitude of shapes, with teeth and
claws and ugly wrinkles. Yet, de-
spite the fierce aspect of these moun-
tains, they have fascinated all who
have visited them, and brought many
tourists back summer after summer
for tramps in the bracing air that
bathes them and for feasts upon the
richly varied scenery which they of-
fer."

"The Dolomites are not the same
from year to year. The rock of which
they are composed is not as durable

as that which enters into the com-
position of our Rocky Mountains and
the Alps. Each year, its thousands
of fantastic moldings are carved
new. The strange Dolomite needles
become more pointed and longer,
while the white cliffs, which rise to
sharper edges, its "balks," "obelisks,"
pyramids, "cathedral spires," its ser-
rate "teeth" and etched walls, disinter-
gate noticeably from year to year.
Scattered throughout their area are
great fields of broken stones, and deep
crevasses of eroded matter slope against
their higher walls.

Birthplace of Titian.
"Titian, the great master of colors,
was born in this mountain region.
His birthplace was Cadore, or Rive
di Cadore. At least, he spent his boy-
hood in the latter village, once the
capital of a sturdy Dolomite republic,
the Republic of Cadore, which was
founded 600 years before America was
discovered, and which existed for 800
years, losing its liberty to no lesser
conqueror than Napoleon, who, at the
peace of Campo Formid in 1797, re-
arranged this part of Europe."

"The Latins and the Germans have
fought from times immemorial on the
Dolomites' cyclopean battlefields. A
race of warriors grew up in this bor-
der land, and, also, one might say, a
race of peasant aristocrats. There
are humble people here who can
trace the family parentage back un-
broken through centuries, and who
treasure ancient family documents
signed by popes and emperors, dukes
and great nobles. Some of our star-
diest immigrants, Italian, German and
Slav, come from these mountain fast-
nesses. Few of the remain, however,
for their wonderful mountain home-
land calls them irresistibly after they
have made their 'stakes.'"

**A Sure Way To
End Dandruff**

There is one sure way that has never
failed to remove dandruff at once, and
that is to dissolve it, then you destroy it
entirely. To do this, just get about four
ounces of plain, common liquid arvon
from any drug store (this is all you will
need), apply it at night when retiring,
use enough to moisten the scalp and rub
it in gently with the finger tips.

By morning, most if not all, of your
dandruff will be gone, and three or four
more applications will completely dis-
solve and entirely destroy every single
sign and trace of it, no matter how much
dandruff you may have.

You will find all itching and digging
of the scalp will stop instantly, and your
hair will be fluffy, lustrous, glossy, silky
and soft, and look and feel a hundred
times better.
